Its coordinates take you to the most beautiful destination of your travels and tell the story of a place where time stands still, Istria ends and the sea extends deepest into Croatia, and where there is inimitable style, first-class service and fantastic cuisine. This is the story of the Design Hotel & Restaurant Navis. However, the best stories are those that you take part in during your stay. **These are the stories that make us happiest.***

A Room Without A Sea View? Sorry, But We Don't Have Any!

Each of the 44 rooms of the Design Hotel Navis is unique in its own way. The moment you open the door to your room, you will have a view of the Kvarner archipelago, and the enormous glass wall which stretches across the entire width of the room creates the feeling that you're on the open sea. Quality design, careful attention to detail, and spaciousness are the key elements of each room. However, the best thing of all is that just one step and you're in the sea!

Thanks to their large glass walls, the rooms have spectacular sea views. The harmonious blend of natural materials and attractive designer furniture create a truly special impression. Space and functionality are the key elements for a pleasant stay, as is the chance to choose between two twin beds or one king-size.
